

Pellet fireplaces Centropelet Z13 and Z15

Pellet fireplaces Centropelet Z13 and Z15 are hot air wood pellet firing stoves that heat the room with hot air using a fan built in the stove. They are made of steel with modern design and high efficiency. The delivery standardly includes a digital control that can be used for controlling the operation of the stove

PRODUCT CHARACTERISTICS

EFFICIENT

The economical function enables automatic power down when the room temperature approaches the default values.

MODERN DESIGN

These stoves with their modern lines fit perfectly into your home.

SMART FUNCTIONS

The pellets are automatically supplied by sling conveyor and burned automatically with electric heater.

WiFi ready

Prepared for WiFi module.
